PROJECT DETAILS

Project Manager
Glenn Amies

Supervisor
Wayne Stephenson

Location
Troy Street
Emu Plains NSW

Sector
Education

Project Value
\$250K

This beautiful project included a complete classroom refurbishment to Our Lady of the Way Primary School in Emu Plains to create open plan learning spaces with new disabled bathrooms for students with special needs.

Main features included new carpets throughout, joinery, furniture, doors, windows and the design and installation of a curved glass breakout room.

This was an exciting challenge for our team, considering the tight timeframes for the project, to coincide with the delivery of all new fun furniture.

CASE STUDY

THE RESULTS

The initial concept for the curved glass room came from a rough sketch from the architect and then discussion and ideas from our commercial contractor, C2G Commercial who designed shop drawings and manufactured the space. We're thrilled with the outcome as it provides a gorgeous contrasting centre piece.

The colour scheme carried throughout the room from the walls, carpets, accent carpet tiles and the various pieces of furniture, was a continuation of the existing to adapt to the new spaces.

- If you have a creative challenge or renovation / repair project, we'd love to hear from you -
