

RESIDENTIAL AND COMMERCIAL  
BUILDING SERVICES

## CASE STUDY

### PROJECT DETAILS

**Location**  
Troy Street  
Emu Plains NSW

**Sector**  
Education

**Client**  
Catholic Education  
Diocese of Parramatta

**Project Manager**  
Glenn Amies

Following the construction of the Covered Outdoor Learning Area (COLA) at Our Lady of the Way (OLOW) Primary School, AJ Grant Group was engaged to supply and install acoustic insulation and custom orb perforated sheeting to the underside of the COLA in accordance to acoustic consultants' specifications to improve the acoustic and sound levels to this area, whilst still keeping 3 rows of clear polycarbonate open.

The Catholic Education Office of Parramatta required the work to be undertaken as swiftly as possible during school holidays, in order to diminish the effects of having these important learning areas offline.

The installation and outcome of these works has made a vast improvement to the area with a high-quality finish and no disruption to the school and activities.
